From Cape Town take the N1 in the direction of Paarl. DO NOT take the Durban Road / Willie van Schoor exit that takes you to Durban Road and Tygervalley.

Take the next exit called **Old Oak Weg/ Brackenfell** (about 24km from the centre of Cape Town).

When you've left the N1 there will be a traffic light where you will cross over **Old Oak Road** – DO NOT turn left or right into Old Oak and ignore all signs to the left saying “Durbanville” as you are approaching your destination from the bottom side of Durbanville, which is quicker.

From the point where you turned off the N1 (and crossed over Old Oak Road) you need to **follow the road for 5.9km**, passing, in order: *Stodels Nursery* on your right, four sets of traffic lights, the Durbanville Golf Course on the left, and another set of traffic lights till you reach the crossing of **Fairtrees Road** (the road you are in) and **Langeberg Road**.

WARNING – There is a speed camera as you come around the sharp left-hand corner at Stodels.

Turn **left** into **Langeberg Road**, then **right** into **Tambotie** at the traffic circle with the palm tree in the centre. After one short block there is a T junction and you go **left**. This is also called **Tambotie**. The **second street on the right, Lobelia**, is my street. We are **the second house on the left, No 4** - We do not have a bell. Rattle the gate and the dogs will bark (but not bite) and we will hear you as we know you are coming.

eezy peezy
